

# Clever High-Low Poker™

For 2 to 10 Players

## Description

Clever High-Low Poker™ doubles the fun of a classic poker game by allowing players to compete for *both* the highest and lowest hand in every round!

## Best With

Series 641 Dual Value Playing Cards™

## Setup

As in standard poker, the CLEVER dealer declares the rules for play, such as how Aces rank or if there are any wild cards. The dealer also decides how the pot will be split between the winners of the highest and lowest hands. We suggest five card stud or draw, no wild cards and a two-thirds / one-third split of the pot.

## Play

Arrange the cards in your hand so that your strongest poker hand is displayed with the values on the top of your cards. The values on the bottom of your cards will be what you play for your lowest poker hand. (If your highest hand isn't very strong, arrange your cards looking for your lowest hand.) Bet according to the dealer's choice.

## Series 641

Listed below, from strongest to weakest, are possible five card stud poker hands specific to Series 641 Dual Value Playing Cards™. New hands are listed in red. Hands moving up in relative strength from standard poker are noted with an arrow.

Royal Straight Flush.....	96
