

PRIME LOCATION: THE SEVEN HILLS

Score the most Victory Points in this multi-layered strategy game.

Remember the prime rule of real estate: *Location, Location, Location!*

2 - 5

11+

31 - 43

Invest in various hills for in-game and end-of-game bonuses.

Optimize your scoring on the threshold-based track.

Balance short-term tactics and longer-term strategies.

Place your classic Roman buildings, claim locations and instantly score points.

Each card type has its own special action.

Prime Location 2 Player Game, P = 2			Meld Points		
Choose One	Basic Action	Special Action	Meld Total	"Building" Points	Cards in "Count" Meld Points
Discard	Draw 2 cards	Place Cubetto, Maybe score 2	17, 19, 23	2	5
Discard	Draw 2 cards	Draw Extra Card	26, 31, 37	3	6
Discard	Draw 2 cards	Get P Chip	41, 43	5	7 or more
Meld (Discard 3 or more cards)	Draw 2 cards	Place Building, Score Meld*, maybe Move meld card limit	End of Game Points		
			Convert cube differential to P chips		
			Second Largest Cluster Size	Points	Doubly Occupied Regions
			2	2	2
			3	3	3
			4	5	5
			5	7	7
			6	11	11
			7 or more	13	13
			*Meld Score = "Building" points + "Card Count" points = "Threshold" points		
Meld Card Limit	3	4	5	6	7+

Advance your capabilities!

Game Components:
